

Problem-Solution Fit

Date	30 September 2026
Team ID	SWTID-2026-9792
Project Name	FitBuddy – AI Fitness Plan Generator

Problem-Solution Fit Canvas

Canvas Area	FitBuddy Analysis
1. Customer Segment(s)	Students, beginners and general fitness users seeking personalized routines.
2. Problems / Pains + Frequency	Generic plans, uncertainty about suitable intensity, and difficulty modifying routines; recurring during fitness planning.
3. Triggers to Act	Starting a fitness goal, changing intensity, or needing a more suitable routine.
4. Emotions Before / After	Before: uncertain or overwhelmed. After: clearer, more motivated and able to request changes.
5. Available Solutions – Pros / Cons	Static online plans: accessible but generic. Trainers: personalized but can cost more and require scheduling. FitBuddy: automated personalization but dependent on AI output quality.
6. Customer Limitations	Time, fitness knowledge, budget and access to personalized guidance.
7. Behavior + Intensity	Users provide profile details, review plans and may request changes; engagement can be high at workout-planning moments.
8. Channels of Behavior	Online web application; future mobile or hosted web deployment.
9. Problem Root / Cause	Users need a structured plan adapted to personal goals and intensity rather than a one-size-fits-all routine.
10. Your Solution	FitBuddy combines user inputs, Gemini-generated plans, nutrition/recovery guidance, persistence and feedback-based plan revision.
