

Project Executable Files

Date	30 September 2026
Team ID	SWTID-2026-9792
Project Name	FitBuddy – AI Fitness Plan Generator

Project Executable Files

The executable/deployable project is a Python FastAPI web application. The following files are essential to reproduce the application:

File / Folder	Purpose
app/main.py	Application entry point.
app/routes.py	Web routes and workflow orchestration.
app/database.py	Database models and operations.
app/gemini_generator.py	Workout plan generation.
app/gemini_flash_generator.py	Nutrition/recovery generation.
app/updated_plan.py	Feedback-based plan revision.
app/admin_auth.py	Admin authentication helper.
templates/	Jinja2 HTML pages.
static/	Images and static assets.
requirements.txt	Python dependency list.
.env	Local secrets/configuration; NOT included in shared documentation package.

Run concept

Install the requirements, configure GEMINI_API_KEY, SESSION_SECRET_KEY, ADMIN_USERNAME and ADMIN_PASSWORD in a local .env file, then start the FastAPI application with Uvicorn. Actual secret values must never be committed to source control.
