

FitBuddy – AI Fitness Plan Generator

Team ID: SWTID-2026-9792

Team Size: 5

Team Members: Tarunya V, Sripriya, Stella Mary, Varsha S, Abirami R

STEP 1 – BRAINSTORM AND IDEA LISTING

Since the team has 5 members, each member contributes one primary idea. The ideas are related to solving common problems faced by people who need simple and personalized fitness guidance.

No.	Team Member	Brainstormed Idea
1	Tarunya V	AI-powered personalized 7-day workout plan based on user details, fitness goal and intensity.
2	Sripriya	Goal-based exercise recommendations so users can choose suitable workouts for weight loss, fitness or strength.
3	Stella Mary	AI-generated nutrition and recovery tips to complement the workout plan.
4	Varsha S	Feedback-based plan modification so users can update their workout plan when it is too easy, difficult or unsuitable.
5	Abirami R	Workout progress and history tracking to help users monitor their fitness journey.

STEP 2 – IDEA PRIORITIZATION

The five ideas were compared based on feasibility, user importance and relevance to the FitBuddy problem. The selected ideas form the core project and future-scope features.

No.	Idea	Feasibility	Importance	Decision
1	Personalized 7-Day AI Workout Generator	High	High	Selected – Core
2	Goal-Based Exercise Recommendations	High	High	Selected – Core
3	Nutrition & Recovery Tips	High	Medium	Selected – Core
4	Feedback-Based Plan Modification	High	High	Selected – Core
5	Progress & History Tracking	Medium	High	Future Scope

Final Prioritized Concept: FitBuddy combines AI-generated personalized workout planning, goal-based recommendations, nutrition/recovery guidance and feedback-based plan updates into one simple fitness assistant.

EMPATHY MAP

Project: FitBuddy – AI Fitness Plan Generator **Team Size:** 5 **Team ID:** SWTID-2026-9792

Target User: Beginner or busy fitness user who wants a simple, personalized workout plan without spending significant time searching for exercises.

SAYS • I want a workout plan that matches my fitness goal. • I do not know which exercises or intensity are right for me. • I want something simple and easy to follow.	THINKS • Can I get a plan quickly without researching many exercises? • Will the plan match my goal and fitness level? • Can I change the plan if it does not suit me?
DOES • Enters basic details such as age, weight, goal and intensity. • Uses the generated 7-day workout plan. • Gives feedback to update the plan.	FEELS • Motivated when the plan is personalized. • Confused when there are too many workout choices. • More comfortable when the plan can be adjusted through feedback.

Empathy Insight: Users need a fitness solution that reduces confusion, saves time and gives personalized guidance while allowing adjustments based on their feedback.
